## Understanding the APUSH Exam 2023 Format

The APUSH exam in 2023 follows a structured format designed to test students' comprehensive knowledge of U.S. history and their ability to analyze historical evidence. The exam is divided into two main sections: multiple-choice and free-response questions. The College Board updates the exam periodically to reflect curricular changes and current educational standards.

### Section 1: Multiple-Choice and Short-Answer Questions

The first section consists of multiple-choice questions (MCQs) and short-answer questions (SAQs), which assess students' recall and interpretation of historical facts, concepts, and sources. The multiple-choice portion usually contains around 55 questions to be answered in 55 minutes, while the short-answer section typically includes three questions requiring concise written responses.

### Section 2: Free-Response Questions

The free-response section includes a Document-Based Question (DBQ) and two Long Essay Questions (LEQs). This section tests students' abilities to craft coherent historical arguments supported by evidence. The DBQ requires analyzing a set of documents, while LEQs focus on broader historical themes

or periods. Students have 1 hour and 40 minutes to complete this section.

## **Scoring and Weighting**

The overall score combines results from both sections, with multiple-choice and short-answer questions accounting for 50% and free-response questions making up the other 50%. Understanding this weighting helps students prioritize their study efforts effectively.
