Step-by-Step Guide to Change Language on Oral-B i0 6

Changing the language on Oral-B i0 6 involves a straightforward process that can be completed directly on the device or through the connected Oral-B app. This section outlines both methods, ensuring users can select the one that best suits their preference.

Changing Language Directly on the Toothbrush

The Oral-B i0 6 features an interactive display that allows users to navigate through settings, including language selection. To change the language directly on the device, follow these steps:

1. Turn on the toothbrush by pressing the power button.
2. Access the settings menu by swiping or using the buttons as indicated in the user manual.
3. Navigate to the language settings option labeled “Language” or marked with a globe icon.
4. Select the desired language from the list displayed on the screen.
5. Confirm the selection by pressing the appropriate button or tapping the screen.
6. Exit the menu and allow the toothbrush to update its display language.

Changing Language via the Oral-B Mobile App

The Oral-B app provides an enhanced interface for managing device settings, including language preferences. To change the language through the app, users should:

1. Ensure the Oral-B iO 6 toothbrush is connected to the smartphone via Bluetooth.
2. Open the Oral-B app on the smartphone.
3. Navigate to the device settings or profile section within the app.
4. Locate the language settings menu.
5. Select the preferred language from the available options.
6. Save the changes and sync the toothbrush with the app to apply the new language setting.

Using the app can sometimes provide a broader range of language options and a more intuitive adjustment process.

Troubleshooting Language Setting Issues

Users might encounter difficulties when attempting to change the language on Oral-B iO 6, such as the device not responding or language options not displaying correctly. Understanding common issues and solutions helps maintain a smooth user experience.
