Does Paramount Plus Include the History Channel?

The primary question of whether Paramount Plus has the History Channel can be answered clearly: Paramount Plus does not include the History Channel as part of its streaming service. The History Channel is a separate cable and satellite television network owned by A&E Networks, a joint venture between Hearst Communications and The Walt Disney Company. Due to this ownership and licensing structure, the History Channel's live broadcasts and full library are not directly available on Paramount Plus.

Paramount Plus focuses mainly on content from CBS, BET, Comedy Central, MTV, Nickelodeon, and other ViacomCBS-owned properties. While it offers a broad range of movies, original series, and live sports, the History Channel is not within its content portfolio. Subscribers to Paramount Plus cannot stream History Channel shows live or on-demand through the platform's standard subscription packages.

Availability of History Channel Content on Streaming Platforms

Though Paramount Plus does not carry the History Channel, various other streaming platforms provide access to the channel's content. Some services offer live streaming of the History Channel, while others feature select shows and documentaries from the network's catalog.

Streaming Services Offering History Channel Access

The following streaming platforms are known to include the History Channel in some capacity:

- **Hulu + Live TV:** Offers live streaming of the History Channel as part of its live TV package.
- **Sling TV:** Includes the History Channel in its Blue package, providing live access to the channel.
- **FuboTV:** Features the History Channel in its channel lineup for live streaming.
- **DirecTV Stream:** Offers live History Channel access depending on the subscription package.
- **Philo:** Provides live streaming of the History Channel at a lower cost with a range of other lifestyle and entertainment channels.

These platforms allow viewers to watch History Channel live and often provide on-demand access to recent episodes of popular series. However, these services require separate subscriptions and are not part of the Paramount Plus ecosystem.

Alternatives to Access History Channel Programming

For viewers seeking History Channel programming without subscribing to cable, there are alternative methods to access this content aside from live TV streaming services.

History Channel App and Website

The History Channel offers its own app and website where users can stream full episodes and clips of many shows. While some content is available for free, full access often requires authentication through a participating cable or streaming provider login.

Purchase or Rent Through Digital Stores

Many History Channel series and specials can be purchased or rented through digital marketplaces such as:

- Amazon Prime Video
- iTunes/Apple TV
- Google Play Movies & TV
- Vudu

This option allows users to own or rent specific episodes or seasons without subscribing to a live TV service.

Documentary Streaming Services

Some niche streaming services focus on documentary content and may have licensing agreements to feature certain History Channel documentaries or similar programming. Examples include CuriosityStream and History Vault, though access to History Channel branded content may vary.

Paramount Plus Content Overview and Historical Shows

While Paramount Plus does not carry the History Channel, it offers a selection of historical and documentary-style content across its platform. These shows cater to viewers interested in history, culture, and real-life events, though they are not branded as History Channel programming.

Notable Historical and Documentary Content on Paramount Plus

- **NCIS** – A procedural series involving naval criminal investigations with historical military references.
- **Yellowstone** – A drama series with historical themes related to land ownership and family legacy.
- **Documentaries and Specials** – Various original documentaries covering topics such as politics, biographies, and social issues.

Subscribers looking for historical content on Paramount Plus will find a different approach compared to the History Channel's documentary-heavy lineup. Paramount Plus emphasizes scripted drama and original programming alongside some factual content.

How to Watch the History Channel Without Cable

For cord-cutters and streaming customers wanting to watch the History Channel, several options exist to access its content without a traditional cable subscription.

Live TV Streaming Services

As mentioned, services like Hulu + Live TV, Sling TV, FuboTV, DirecTV Stream, and Philo provide live streaming access to the History Channel. These platforms generally require a monthly subscription but offer the flexibility of streaming on multiple devices.

Using Digital Devices and Apps

Once subscribed to a compatible live TV service, users can watch the History Channel via the service's app or device integration (smart TVs, Roku, Amazon Fire TV, Apple TV). This setup allows for on-demand viewing and live broadcast access.

Standalone App with Authentication

The History Channel app can be used to stream episodes live or on demand, provided the user logs in with credentials from a supported TV or streaming service. This method requires a subscription to one of the aforementioned providers.
