Understanding Subject Pronouns in Spanish

Subject pronouns in Spanish are words that replace the subject in a sentence, indicating who is performing the action of the verb. These pronouns are essential for sentence construction and clarity. Unlike English, subject pronouns in Spanish are often omitted because the verb conjugation usually indicates the subject. However, they are used for emphasis or clarity in conversation and writing. The main Spanish subject pronouns include first, second, and third person forms in both singular and plural.

List of Spanish Subject Pronouns

The subject pronouns in Spanish are as follows:

- **Yo** - I (first person singular)
- **Tú** - You (informal second person singular)
