Overview of Signing Naturally Curriculum

The Signing Naturally curriculum is a widely recognized American Sign Language (ASL) program designed to teach students of various ages how to communicate effectively using sign language. Developed by Cheri Smith, Ella Mae Lentz, and Ken Mikos, the series is known for its engaging, communicative approach to ASL learning. It emphasizes natural language acquisition through visual and interactive methods rather than rote memorization. The curriculum includes vocabulary lessons, grammar explanations, cultural insights, and practical signing exercises. Signing Naturally is divided into multiple levels, each targeting different age groups and proficiency stages, making it adaptable for diverse educational settings.

History and Development

Signing Naturally was first published in the late 1990s and has since become one of the most trusted resources in ASL education. The curriculum was developed with input from Deaf educators and language experts to ensure authenticity and effectiveness. Over time, it has been updated to incorporate modern teaching strategies and technology integration. The 7-12 level specifically addresses the unique developmental and cognitive needs of preteens and early adolescents, fostering both language competence and cultural awareness.

Curriculum Structure

The curriculum is organized into units containing lessons that progressively build on students' knowledge. Each unit typically includes vocabulary, dialogues, grammar points, and cultural notes. Activities such as role-playing, storytelling, and interactive signing challenges encourage active participation and retention. Visual aids, including videos and illustrations, complement the text-based materials to enhance understanding.

Features of Signing Naturally 7-12

Signing Naturally 7-12 is tailored for children in the upper elementary to early middle school years. This level focuses on expanding vocabulary and refining grammatical structures appropriate for this age range. The lessons are designed to be engaging and age-appropriate, incorporating themes and topics relevant to students' daily lives. The curriculum supports both receptive and expressive language skills, promoting fluency and confidence in signing.

Age-Appropriate Content

Content at this level includes scenarios and vocabulary related to school, family, hobbies, and social interactions. The material encourages students to apply their signing skills in real-world contexts, enhancing practical communication abilities. Lessons are crafted to maintain student interest through storytelling and relatable examples, which are critical for natural language acquisition.

Interactive Learning Methods

Interactive components such as group work, peer feedback, and multimedia resources are integral to the 7-12 curriculum. These methods foster collaborative learning and allow students to practice signing in dynamic environments. The use of videos and online resources supports diverse learning styles and reinforces lesson content outside of traditional classroom settings.

Benefits of Using Signing Naturally 7-12 PDF Free

Utilizing signing naturally 7-12 pdf free editions offers several advantages for learners and educators alike. Free access to these materials can remove financial barriers, enabling wider adoption of ASL instruction and practice.
