Overview of i-Ready and Its Level System

i-Ready is an adaptive assessment and personalized learning program widely used in K-8 education to measure student proficiency in reading and math. The program assigns students to specific levels that correspond to grade bands, using letter grades from A to Z to denote increasing difficulty and complexity. These levels help educators identify students' current abilities and provide tailored instruction based on their needs. Understanding the hierarchical structure of these levels is essential for interpreting assessment results and selecting appropriate instructional materials.

The Letter Grade Leveling System

The leveling system in i-Ready is designed to align with the Common Core State Standards and other state standards. Each letter level typically corresponds to a grade or portion of a grade. For example, Level A aligns with kindergarten skills, while Levels F and G correspond to the early elementary grades. This systematic approach ensures that students progress through a scaffolded sequence of skills, building foundational knowledge and advancing toward more complex concepts.

Adaptive Assessment and Placement

i-Ready assessments are adaptive, meaning they adjust the difficulty of questions based on student responses.
