The Forum is best known for its annual meeting in Davos, where key stakeholders gather to discuss economic trends, technological advancements, climate change, and social challenges.

Mission and Objectives

The WEF's primary mission is to improve the state of the world by fostering public-private cooperation. It aims to shape global, regional, and industry agendas through dialogue and partnerships. The Forum focuses on areas such as sustainable development, economic growth, digital transformation, and geopolitical stability.

Key Activities and Influence
